**HEADWAY CORP RESOURCES ANNOUNCES PARTNERSHIPS
WITH HICKORY FARMS & HALLOWEEN EXPRESS**

Full-Service HR Solutions Firm Provides Large Scale Seasonal Staffing and HR Resources

Raleigh, NC -- September 10, 2007 – Headway Corporate Resources, the leading full-service human resources solutions company providing recruiting, staffing and HR technical support services to a range of business sectors, today announced partnerships with Hickory Farms and Halloween Express. From fall through the end of the holiday season, those organizations require ultimate large-scale retail staffing personnel to manage kiosks and stores. In turn, Headway will provide the companies with seasonal employees and payroll solutions during the heavy holiday seasons for the coming three years.

Due to seasonal retail's unique situation, Halloween Express and Hickory Farms face specific challenges head-on. With a need of nearly a thousand temporary employees – common in seasonal staffing – it is impossible for companies to independently engage in cost-effective screening of large-scale or short-term employment.

“Large-scale variable staffing is time-consuming and cost prohibitive for most corporate HR departments,” explained J.P. Sakey, Headway Corporate Resources’ CEO. “With significantly

lower costs and increased candidate numbers, the Headway Recruitment Center fulfills clients' specific variable staffing and HR needs in the most timely and cost-efficient manner.”

Headway's broad scale of online sourcing, screening, recruitment and processing tools expedite processes, ultimately saving time and money for both Hickory Farms and Halloween Express.

The center enables Headway to source and screen potential candidates online outside the physical office. Use of Web tools enables the company to locate candidates that traditional staffing firms and HR Departments miss with common employee search methods.
